#Міжнародний IS THOUSANDS OF SUCCESSFUL GRADUATES!

Yuriy Lubkovych occupies the position of the head of the secretariat to the Speaker of the Verkhovna Rada of Ukraine: "I selected the then Ukrainian-Dutch faculty of economics and management due to quality of education and opportunities. Besides the education we had opportunities to participate in academic student exchange programmes and gather experience of studying abroad that further had positive effects on my career and professional development. Recalling my years of studies at TNEU I refresh the moments of being the member of a students' self-government, and also numerous creative and multicultural events. Always remember my with gratitude to my teachers and lecturers, especially M. I. Shynkaryk and the dean L.V.Havryliuk-Yensen.

Vitalii Zapuhliak, Candidate of Economic Sciences, Honorary Consul of the Republic of Croatia in Ukraine: "What have I taken out of my experience at #Міжнародний? As it is often the case in economics, the answer is both simple and complex. You just need to be the best of the best by going by the 'Work-Strive-Respect-Nurture-Share Rule': Work on deepening your knowledge. Strive to be a better version of yourself. Respect the experience of people around you. Nurture the belief that there is nothing impossible. Share your knowledge generously with younger generation. This is really simple and complex at the same time. #Міжнародний is a hard road to travel, but definitely a worthy one!"

Tetiana Chubak, Director of Development at "Podoliany" Shopping and Entertainment Centre, Honorary Consul of Hungary in the city of Ternopil and Ternopil region: "#міжнародний is a part of my life. Studying at the Institute gave me an incentive for development and professional self-realization. The companies where I used to work before engaged in foreign economic activity and participated in international exhibitions, which helps me today to develop close diplomatic relationships. People often ask me whether I studied abroad. And I'm always happy to answer that I studied at #міжнародний of TNEU, where I learned to speak a foreign language, grasped the laws of economics and acquired management skills".

Work in the international economic environment

Do you have a lot of questions that need to be answered?

Do you want to know how the economic mechanism works in different countries? Have you asked yourself a question: What makes the European Union successful and which challenges is it currently facing? You can become familiar with the anatomy of the global economic space and learn how a country can choose an effective

strategy in the global environment. The educational programme in International Economics is tailored to help you answer these and similar questions. The obtained knowledge and skills will make you able to see the overall economic pattern – the global economy in all its beauty! You can study in 4 languages: Ukrainian, English, French, German (and pass a semester study at Dresden Technical University).

Open the whole world with us

Modern Educational Program "Business Communication and Translation" will help you discover the passion and aptitude not only for learning foreign languages, but also for being able to apply this knowledge in your business environment.

By choosing this program, you will get internship opportunities at the best universities of Germany, Poland, Austria and Turkey, take internships at domestic and foreign companies, improve your business foreign language, acquire translation and communication practices, master synchronous translation.

Study international economic relations, become a successful businessman and manager

Practical long-term economic relations between different countries are the key to success. Deep immersion in the educational program «International Economic Relations» will allow you to master the basics of international business.

And the International Management educational program is the key to a successful career in an international company! Students in these programs, where most subjects are taught in English, have the opportunity to study under the Erasmus + academic exchange program at the University of Applied Sciences Inholland (Alkmaar, Kingdom of the Netherlands).

Study the countries of the East

If you dream of becoming a specialist in international relations, are interested in the history, economy and foreign policy of the East, want to learn about the cultural traditions and philosophy of these countries, learn Oriental languages, then your choice is the educational program «Oriental Studies».

International Relations, Public Communications and Regional Studies

If you admit that international relations, foreign policy and regional integration tend to catch your interest or you are ready to move heaven and earth to master the basics of diplomacy, then the educational program of International Relations, Public Communications and Regional Studies suits you best in your aspiration to gain new knowledge, achieve your ambitious goals and develop professional relationship with the officials of diplomatic services.

Learn Tourism and go travelling!

Tourism is a dynamically evolving industry, which offers well paid jobs. In addition, it's an opportunity to visit many countries filling you with new impressions and emotions. You will be able to have a traineeship not only in the travel agencies of Ukraine, but also in other countries via student mobility programs with our partner universities.

Hotel and Restaurant Management

Hotel and Restaurant Management is a speciality, which has been intensively developing over the recent years. Whether you want to start your own business or take a managing position in a hotel or a restaurant network, here with us, you will be able to acquire high-quality education and practical proficiency thanks to our cooperation with best restaurants and hotels.

Master Political Science and Philosophy

Political system covers all spheres of human activity within a society. Politics often appears at the epicentre of debate where more questions arise than there are answers given. Do you have any such questions? The curriculum of our educational program in Political Science was designed to help you figure out the twisted puzzles of modern political situations, such as pre-election confrontations, boycotts or full-scale revolutions. Also, you will be taught to predict where and how they can appear in the future. By observing political processes you will learn how to see what others cannot see.

#Міжнародний
